WHY USE VERVE WORKSPACE?

| What makes us different, and how does that help you?

FIRSTLY

THANK YOU

FOR CONSIDERING US!

When I started the company back in 2004 - we wanted to be the best office furniture company around. Over the years, we've worked hard to develop what we can offer to help customers with their entire project - large or small. We help our customers to achieve what they want for their new or existing premises - at a price they need. We offer choice, value and operate with integrity - so that our customers come back year after year. Now, many years later we're proud that so many of them do.

And now, we offer so much more to make office design easier and more cost effective. We offer the complete office interior package - furniture, carpets and flooring, decoration, partitions and ceilings, blinds and more. Our dedicated security division is even SSAIB accredited to install alarms and CCTV too. A complete turnkey service, but one that doesn't leave you feeling like a number in a production line. It's all about good old fashioned personal service.

All in all, we can make your business premises look incredible - without breaking the bank. Please give us a call, whether you're moving premises or just want to give your staff a fresher place to work. We'd love to hear from you.

Steve Allan

Managing Director

WE BUILD

ENVIRONMENTS

THAT MATTER

For every project we work on - large or small - we know that what we do affects peoples lives. We all spend so much of our waking hours in work - we know it's vital that we get it right. By thinking creatively, and considering lots of factors for the space we're working with - we are able to make a brilliant impact. By avoiding choosing boring products in uninspiring colours - and offering overpriced "architect favourites" we save clients money, without sacrificing quality.

1

OUR STORY

... SO FAR

We have worked on thousands of projects for our clients since we started back in 2004. We work across the UK with businesses ranging from start ups, SME's, 'Blue Chips', various charities and government organisations. We have a great team - most have been with Verve for many years.

We think
CREATIVELY

Getting the design right is vital to get the impact you want - whether it's a whole new office - or breathing new life into an existing premises. We use great colours, fabrics and the latest trends to create an amazing working environment. And we do the design work in house - and FREE OF CHARGE.

We stand for
INTEGRITY

We will always respect our customers, and be honest in how we conduct ourselves. We won't make false promises and we won't switch sell products. We will always give our best advice to ensure our customers don't spend more than they need to.

We do amazing
PROJECTS

We've been fortunate to work on some amazing projects over the years, and be a part of the story of some incredible businesses too. We're proud to be involved, and take our part seriously.

And we do it
ON TIME

We work hard to have the right teams in place for each part of the job. We won't take on a job unless we're confident that we can do it. Of course, sometimes things don't go to plan - but we go above and beyond to keep things on schedule.

2

HELPING YOU SLEEP AT NIGHT

IT'S WHAT WE'RE HERE FOR.

You're looking for a reliable company that you can entrust your project to. A team that won't let you down, and will work hard for you, and with you too. At Verve we look to build long term relationships, and so it's in our interest to make sure we do it right for you. Our teams are reliable, always available and good at communicating too.

WE MAKE THINGS SIMPLE

We don't use smoke and mirrors. We are clear in our quotations, and we itemise everything too. Our designs are effective, and our approach is transparent. What you see is what you get.

NEVER COMPROMISE
ON QUALITY

We know that you don't need to compromise on quality to achieve good value. By managing our supply chain we can often supply the best products by procuring direct - rather than through third parties.

CHOICE OF PRODUCTS
TO SUIT PERFECTLY

We have a huge portfolio of products so that we can work to whatever the deadline is. We have products in stock - or made to order in bespoke designs.

OUR MAIN AREA OF EXPERTISE

What we do best

We are driven by striving to be the best at what we do, and the easiest to work with. And of course, delivering a fantastic end result.

OFFICE FURNITURE

We started as office and business furniture specialists all those years ago - and we're still leading the way. Our portfolio of products cater for every budget, taste and deadline too. We offer 'off the shelf' furniture from stock, as well as fully bespoke designs which are made to order.

We even have ranges that even beat the prices of the Scandinavian warehouses too. And most of our products are UK made, so we support British industry too.

INTERIOR FIT OUT & REFURBISHMENT

So we've designed your office - and you've chosen your furniture. What now? Well, we can also do all your interior works too, so we're offering a turnkey solution. Office partitions, suspended ceilings, lighting, carpets and vinyl flooring. Installation of kitchens, and canteens. Data cabling, repositioning of floor boxes - and we can even help with the removal process.

FREE DESIGN AND SPACE PLANNING

Our in house design team will hold your hand, and listen to what you want - what your vision is - rather than telling you what to have. You'll be working in the space - so it's important that it works for your business. We work to create interiors that excite, and enthuse your team - and make it a brilliant place to work. We want your staff to enjoy their time at work - so they're not desperate to be somewhere else.

SECURITY - CCTV AND ALARMS

Our sister company, Verve Security are SSAIB accredited so we can offer fully installed CCTV systems as well as state of the art alarm systems. We can provide monitoring that meet the requirements of insurers and law enforcement, and apps for your smartphone. We employ our own engineer teams to ensure high standards are met - and we don't do silly contracts. Again, you'll be able to sleep at night.

WE DESIGN THE REALITIES.

3

... AND OUR CONCEPTS ACTUALLY LOOK RATHER LIKE OUR FINISHED PRODUCT TOO. WHICH IS NICE.

SIMPLE STUFF ABOUT US

SUCCESSFUL
PROJECTS SO FAR

To date, we've carried out over 3,500 successful projects of all sizes and counting!

OF CUSTOMER
REVIEWERS WOULD USE
US AGAIN.

We use Reviews.co.uk for our customer reviews. And 100% of reviewers would use us again. We're very proud of that - and it only comes with great service.

AVERAGE YEARS
WARRANTY GIVEN

Our warranties range from 1 to 15 years, and most of the product manufacturer guarantees are 5 years.

OVER 240,000

Number of items that we have in our range - in anything up to 35 different finish combinations. So technically, that's 8.4 million different possible variations. But that's too much for a catalogue. Probably.

752

Number of terrible jokes told in our offices each week. Okay, so we're guessing - but we try to retain a sense of humour in life, and it helps us remain positive. And as we take our customer projects so seriously, we need to be of good cheer to work well as a team.

OUR COMPANY

In facts and numbers

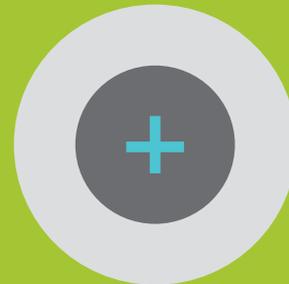

**WE HAVE IDEAS.
NO DOUBT ABOUT THIS!**

Our ideas and experience are what makes us more than just online 'box shifters'. We give proper guidance, and real help, so you get the right products.

**WE ALWAYS PUSH
WHAT'S POSSIBLE**

We constantly look at our products and systems to make sure our customers are getting the best options on the market, and at the very best prices too.

**WE WORK WITH YOU.
ALL THE TIME**

We want long term working relationships with our clients. So it's important that we work hard before, during and after your project to get it right.

SO WHAT'S THE PROCESS IF WE CHOOSE VERVE?

PROJECT DEFINITION

Firstly, a free site visit, and we find out what's needed.

We meet with you - no commitment, and no cost. We run through what you need to do. We actually listen to you, and get a feel for your vision and your business. You let us know what's important - and what you want to end the project with it looking like.

SITE SURVEY

When we meet - we take your brief, and we also do a site survey.

So we take the measurements of the space, and/or get copies of any building plans. This will help us to assess space needs, potential noise levels and anything else we need to consider.

DESIGN PROCESS

This is where the magic happens. And it's still free to you.

We take what you've told us about your vision, and combine it with our experience of creating brilliant interiors. We use suitable products from our furniture ranges and create plans, and rendered 3D visuals too. These help get a great vision of how your new space will really look. We keep tweaking this until it's perfect for you.

FULL QUOTATION

Fully itemised, and nothing hidden.

So once you're happy with the design, we put together a full quotation. We are transparent, and give proper descriptions. We use this to make sure we've interpreted your needs properly, and that the details are correct. We offer competitive prices, and this allows you to control your budget too. We are always happy to discuss leasing, and finance options.

PROJECT WORKS

So you've placed the order - and now the fun starts!

So, you've finalised the design and quotation. So we can get cracking. We prepare a schedule of works, and our teams get started. We have interior fit out teams, electricians and more, followed by flooring, blinds and of course furniture. All of which is overseen by your Verve contact. Whilst not on site permanently, they'll always be on hand to help. And everyone is making sure that the project is going in the right direction.

COMPLETION

We're all finished, and we check and sign off the final article.

So the project is completed, and we'll do the final snagging together. This means that we all check the finer details and make sure everything is fine. It's not a stressful part - and is a normal way to make sure our high standards are met.

Once this is done, and everything is settled - the only question is what's next?

SO, DOES VERVE REALLY OFFER ALL TYPES OF BUSINESS FURNITURE?

DESK AND BENCHES

CHAIRS AND SEATING

RECEPTIONS

BOARDROOMS

STORAGE

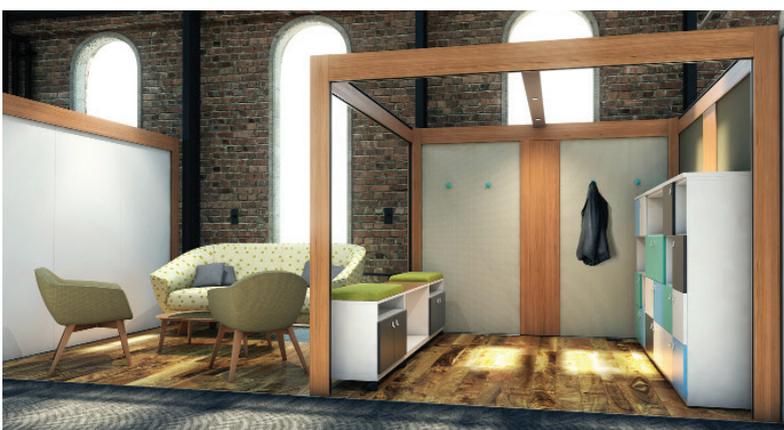

BESPOKE FURNITURE

AND NOW FOR SOME
INSPIRATION
FOR YOUR PROJECT.

You're in good hands.
